

## **Arancha García**

Director, Industry and Environment Department

**ANFAC**

Arancha García has been Director of the Industry and Environment Department in ANFAC since September 2015. She is an industrial engineer from the Escuela Politécnica Superior at Universidad Carlos III in Madrid. She has completed her education with a Master's Degree in Automotive Engineering from Universidad Politécnica de Madrid and the program on Transformational Leadership from the International Center for Leadership Development (ICLD).

Mrs García is Vice-President of the Spanish Association for the Environmental Treatment of End-of-Life Vehicles (SIGRAUTO). She is President of UNE's standardization technical committee on Vehicles. She has also complemented her professional activity as an associate lecturer at the Escuela Politécnica of the Universidad Antonio de Nebrija, teaching Automobile Regulation and Transport Engineering.
